Exciting Upgrades Are Coming to Silverlake!

At the end of September, Silverlake will be launching a new member management system along with an improved mobile app! The new app will make it easier than ever to manage your membership, register for classes and programs, and book activities. During the transition, you may experience a few temporary interruptions, including the ability to charge Bar & Grill and Café purchases to your member account. We'll share more details, including launch dates, download instructions, and new features, as we get closer to the rollout. Thank you for your patience as we make these exciting improvements!
